

Prithiksha K S

[LinkedIn](#)[GitHub](#)[Portfolio](#)[LeetCode](#)

Professional Summary

Pre-final year engineering student (CGPA 9.00) who builds end-to-end software systems in Python and C++, from multi-agent AI pipelines to ML models and secure biometric authentication. First Runner-Up at SAP Hackfest 2026 with a co-authored research paper on spoof-resistant authentication. Interested in secure, scalable cloud systems and eager to contribute as a Software Development Intern.

Education

B.E. Electronics and Communication Engineering	2024 – 2028
PSG Institute of Technology and Applied Research, Coimbatore	CGPA: 9.00
Higher Secondary – SSM Lakshmi Ammal Matric Hr. Sec. School	95.5%
Secondary – SSM Lakshmi Ammal Matric Hr. Sec. School	97%

Technical Skills

- **Languages:** Python, C++, C, Embedded C
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming, Problem Solving (LeetCode)
- **AI / ML:** Multi-agent systems, Scikit-learn, Random Forest, CatBoost, CNNs (ResNet), Fairlearn
- **Tools & Platforms:** Git, GitHub, SAP tools, Arduino, $\LaTeX$
- **Certifications:** Advanced Diploma in Python Programming (ADPP), Verilog HDL (Udemy)

Projects

- **Advanced Disruption Sensing Agents** / *SAP tools, AI Agents, Python* **First Runner-Up, SAP Hackfest 2026**
Built a multi-agent system that monitors operational and external data signals to detect supply-chain disruptions early, assess their impact and recommend mitigation actions for faster, data-driven decisions.
- **Bias Mirror – Ethical AI** / *Python, Scikit-learn, CatBoost, Fairlearn* **Finalist, Qualcomm Edge AI 2025**
Developed an ML pipeline to detect bias in recruitment data, comparing Random Forest and CatBoost models and evaluating them with fairness metrics to support responsible screening decisions.
- **Fingerprint Voting System** / *Embedded C, Biometric Authentication*
Built a biometric voting system with fingerprint enrolment and verification that enforces one-voter-one-vote, rejects duplicate attempts and secures the end-to-end voting flow.
- **NeuroVisionAI & Radiolink-X** / *Python, Deep Learning, CNNs*
Built a deep-learning image interpretation system and an AI radiology assistant for early tumour-risk classification.

Research Publication (Under Review)

- **Class-Aligned Deep Feature Fusion for Practical Fingerprint and Finger Vein Authentication**
Co-authored a bi-modal biometric authentication framework fusing fingerprint and finger-vein features extracted using a ResNet-based CNN, achieving accurate and spoof-resistant user authentication.

Achievements

- **First Runner-Up** – SAP Hackfest 2026
- **Semi-Finalist** – Caterpillar Tech Challenge 2026
- **Finalist** – Qualcomm Edge AI Hackathon 2025
- **Finalist** – iTech Ideathon 2025 (PSG iTech)
- **Finalist** – Code'O Clock 24-hr Hackathon (CIT)

Leadership & Activities

- **Program Manager (2025–2026)** – FESTO (FATC)
- **Joint Secretary (2025–2026) & Media Coordinator (2026–Present)** – Dance Club
- **Editor (2025–2026)** – Multimedia Team, Student Union
- **Executive Member (2026–Present)** – ECE Association
